Why I stopped fighting the Django ORM

Six months of writing raw SQL taught me what select_related was doing all along.

Maya Raman · Engineering · Sep 8, 2026

A small guide to writing your first migration

Migrations are just version control for your schema. Treat them that way and they stop being scary.

Designing a post list people actually scan

Title, author, category, date. Everything else is decoration until proven otherwise.

Maya Raman · Design · Sep 3, 2026

Permissions belong on the server

Hiding the delete button is a courtesy, not a security model.

Tobi Adeyemi · Engineering · Aug 29, 2026

Notes from week one of the internship

What I expected, what actually happened, and the three things I would tell myself on day one.
